

SACHIN KUMAR SINGH

Full Stack Developer

sachin.dev2310@gmail.com | +91-8826530136 | Delhi, India | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with 1 year 8 months of hands-on experience building scalable web and mobile applications using the MERN stack and modern frameworks. Experienced in developing AI-powered platforms and backend systems using LangChain, OpenAI, Gemini, and Anthropic APIs. Skilled in building end-to-end solutions including authentication, payments, analytics, and scalable API architectures. Proven ability to deliver production-ready applications and collaborate effectively with cross-functional teams.

TECHNICAL EXPERIENCE

VenturePact (Master Union / Outgrow.co) *Associate Software Developer* 09/2024 – 05/2026 | Gurugram, Haryana

- Built and maintained scalable full-stack applications using React, Angular, Node.js, Express, MongoDB
- Architected AI-powered backend systems for dynamic tool generation and execution
- Integrated LLM orchestration using LangChain + multi-model APIs (OpenAI, Gemini, Anthropic)
- Engineered secure authentication systems (JWT, OAuth, Google Auth, OTP)
- Established payment infrastructure (Stripe) for subscriptions and tool monetization
- Created analytics pipelines and lead data systems for user behavior tracking
- Implemented API architecture with middleware, validation, and error handling
- Collaborated with cross-functional teams and presented technical presentations

TECHNICAL SKILLS

Backend

Node.js, Express.js, REST APIs, JWT/OAuth, RBAC, Middleware, Error Handling, Redis, API Security, WebSockets

Tools & Platforms

Git, GitHub, GitLab, Postman, Thunder Client, Google Authentication, Firebase

Languages

JavaScript, TypeScript

Database

MongoDB, Mongoose, Schema Design, Indexing, Query Optimization

API Integration

Stripe, OpenAI, Gemini, Anthropic APIs

DevOps & Deployment

API Deployment, Environment Configuration, Vercel, Netlify, Render, Hostinger

Frontend

React.js, Angular, React Native, Tailwind, CSS, Bootstrap, HTML5, CSS3

AI/LLM

LangChain, OpenAI, Gemini, Anthropic, LLM Integration, Prompt Engineering

PROJECTS

Autoolic *(AI No-Code Tool Builder)*

- Designed and delivered a scalable AI-driven backend system enabling users to create tools via prompts
- Built dynamic API generation system to support AI, API-based, and logic-based tools
- Implemented LLM orchestration layer using LangChain with OpenAI, Gemini, Anthropic
- Constructed real-time request handling and tool execution pipelines
- Architected secure multi-tenant architecture with authentication and access control
- Integrated Stripe-based monetization system for paid tools and subscriptions
- Built lead capture and analytics system for tracking user engagement and tool usage
- Optimized backend performance using caching strategies and efficient API design

Punjab Entrepreneurship Mindset Program *(Government Project)*

- Developed backend systems for revenue tracking and expense management
- Built user progress tracking system (daily + sprint-based execution model)
- Structured data models for educational and entrepreneurial workflows
- Released features across Angular web and React Native mobile applications

EDUCATION

Bachelor of Arts (BA), Delhi University

08/2021 – 07/2024 | Delhi, India

Full Stack Web Development, Masai School

01/2023 – 01/2024 | Bengaluru, India

Master of Computer Applications (MCA), Kurukshetra University

08/2024 – 07/2026 (Pursuing) | Haryana, India
