

SACHIN KUMAR SINGH

Software Engineer

sachin.dev2310@gmail.com | +91-8826530136 | Delhi, India | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with 3 years of experience designing, developing, and deploying scalable web and mobile applications using React.js, Node.js, Express.js, MongoDB, JavaScript (ES6+), and modern frontend frameworks. Experienced in building AI-powered platforms and intelligent workflows leveraging LangChain, OpenAI, Gemini, and Anthropic APIs. Skilled in developing RESTful APIs, microservices, authentication and authorization systems, payment gateway integrations, analytics dashboards, and cloud-based solutions. Strong understanding of software architecture, database design, performance optimization, and Agile development methodologies. Proven track record of delivering high-quality, production-ready applications, collaborating with cross-functional teams, and driving end-to-end product development from concept to deployment.

TECHNICAL SKILLS

Frontend

React.js, Next.js, Redux, React Hooks, React Native, Context API, JSX, Tailwind CSS, Bootstrap, HTML5, CSS3, Responsive UI, Component-Based Architecture

Languages

JavaScript (ES6+), TypeScript, Java

Backend

Node.js, Express.js, REST APIs, JWT, OAuth 2.0, RBAC, Middleware, WebSockets, Redis, API Security

Database

MongoDB, Mongoose, PostgreSQL, SQL, Prisma ORM, Schema Design, Query Optimisation

API Integration

Stripe, Amadeus, OpenAI, Gemini, Anthropic APIs

DevOps & Tools

Git, GitHub, GitLab, Postman, Firebase, Vercel, Netlify, Render, API Deployment, Environment Configuration,

AI / LLM

LangChain, OpenAI API, Google Gemini, Anthropic Claude (claude-3-sonnet), Prompt Engineering, LLM Integration

TECHNICAL EXPERIENCE

Associate Software Engineer, *VenturePact (Master Union / Outgrow.co)* 09/2024 – 05/2026 | Gurugram, Haryana

- Built and maintained scalable full-stack applications using React, Angular, Node.js, Express, MongoDB
- Architected AI-powered backend systems for dynamic tool generation and execution
- Integrated LLM orchestration using LangChain + multi-model APIs (OpenAI, Gemini, Anthropic)
- Engineered secure authentication systems (JWT, OAuth, Google Auth, OTP)
- Established payment infrastructure (Stripe) for subscriptions and tool monetization
- Created analytics pipelines and lead data systems for user behavior tracking
- Modernized API architecture with middleware, validation, and error handling
- Collaborated with cross-functional teams and presented technical presentations

MERN Stack Developer, *Farehold Technical Solutions LLP* 04/2023 – 08/2024 | Janakpuri, Delhi

- Developed and maintained a scalable airline booking platform using React.js, Node.js, Express.js, and MongoDB.
- Integrated Amadeus Flight API and built RESTful APIs for real-time flight search, pricing, and booking workflows.
- Implemented Redux Toolkit, React Hooks, and Context API to optimize state management and application performance.
- Collaborated in Agile teams, conducted code reviews, and delivered production-ready features with high code quality.

KEY PROJECTS

Autoolic , AI No-Code Tool Builder

- Spearheaded the development of a scalable AI-driven backend system enabling users to create tools via prompts.
- Built dynamic API generation system to support AI, API-based, and logic-based tools
- Orchestrated LLM workflows using LangChain with OpenAI, Gemini, and Anthropic
- Constructed real-time request handling and tool execution pipelines
- Architected secure multi-tenant architecture with authentication and access control
- Integrated Stripe-based monetization system for paid tools and subscriptions
- Built lead capture and analytics system for tracking user engagement and tool usage
- Optimized backend performance using caching strategies and efficient API design

Punjab Entrepreneurship Mindset Program , Government Project

- Designed backend systems for revenue tracking and expense management
- Built user progress tracking system (daily + sprint-based execution model)
- Structured data models for educational and entrepreneurial workflows
- Released features across Angular web and React Native mobile applications

EDUCATION

Master of Computer Applications (MCA), *Kurukshetra University*
Pursuing

08/2024 – 07/2026 | Haryana

Bachelor of Arts (BA), *Delhi University*

08/2021 – 07/2024 | Delhi

Full Stack Web Development, *Masai School *

01/2023 – 02/2024 | Bengaluru
